

Investing in Northwest Intermodal and Transload Terminals

Optimizing rail infrastructure and supply chains to benefit agriculture producers, shippers, ports and communities

- Global provider of supply chain infrastructure & solutions, operating 50+ transload terminals across North America
- Built and operating Idaho's first Intermodal terminal, in Pocatello (2021)
- Connecting ag producers to NW seaports and global markets; taking trucks off the road
- Expanding Pocatello operations with railcar repair & multi-commodity transload (2024)
- Acquired transload terminals in Chehalis, WA, Salem, OR and Junction City, OR (2024)
